

KLOVE is a vital part of our community because they are an informative station that enlightens and encourages my family. They also share community events on a weekly basis. KLOVE would be truly missed as the quality of music and information would not be as relevant to my family's needs. A LPFM broadcaster would not reach the people that KLOVE currently reaches with these encouraging words. The world needs this uplifting message and peaceful station. KLOVE's services are for all people as they are an encouragement to many as they are traveling throughout our nation in their various occupations. KLOVE is responsible in that many are encouraged daily not just my family but to all as they travel in their various positions.
